This family light contains two designs, both of them focus on the effect of light, and the extraordinary outlookings, being unique and exclusive. The Volans is engined by two 4W strip LED light. It's brighter and more powerfull than the Capri which is powered by 2x3W LED. These product combine decoration and illumination together, with forefront design, and most advanced technology. Thanks to its great finish, metallic silver, defined it as an ideal interior light, of course outdoor as always.
